

C'mon Let's Experience

Emerson Drive

You gotta pay attention in this life
Opportunities could slip right by
You gotta take a chance
Or you'll never know

Sometimes you gotta stop
To say which way to go
Once upon a time could be today
We could be in love
And it's hard to say

Maybe we should stop to reassess
Maybe I should ask instead of guess
Baby are you ever talking about me
When you tell me all your fantasies
Do you really think of someone else
It sounds like me but it's hard to tell

Woahohohoh C'mon let's experience
Yeah all of the love we feel tonight
C'mon baby don't keep me waiting
Ya grab on the reigns and join the ride
Life is too short to sit on the fence
So, C'mon let's experience

Lately when we try to say goodnight
Feels like we never get it right
Every little touch
We still want more
I don't think it was that way before

Even though you say we're only friends
Everybody asks again and again
Even though we don't
Maybe we should
Together they all say we look so good

Woahohohoh C'mon let's experience
Yeah all of the love we feel tonight
C'mon baby don't keep me waiting
Ya grab on the reigns and join the ride
Life is too short to sit on the fence
So, C'mon let's experience

Yeah, C'mon let's experience
Woahohohoh...
