

Everyday Woman

Emerson Drive

You don't put on a lot of makeup
You like to wear your hair pulled back
When the kids'll call, you come a runnin'
You always put yourself last
Most people would say...

You're an everyday woman
But you're everything to me
You are so beautiful
You're an angel I can see
And I'm going to love you
I'm going to love you
Everyday, woman

How do you juggle this busy life
And still have something left for me
I've asked God why I'm the lucky man
Who gets to live in your love's strength
Maybe to this world...

You're an everyday woman
But you're everything to me
You are so beautiful
You're an angel I can see
And I'm going to love you
I'm going to love you
Everyday, woman

And I'm going to love you
I'm going to love you
Everyday, woman
