

# Fall Into Me

Emerson Drive

Right here waiting, staying strong  
Come and fall into me

You say you've turned it off  
Hid your heart upon a shelf  
Scared of what it might cost  
To take it down for someone else  
Cause loving him you lost  
Too much of yourself  
Baby can't you see  
That he's not me  
And

I need you to know you can fall into me  
That my arms are wide open and will always be  
Right here waiting, staying strong  
Come and fall into me

I'll follow any road  
Anywhere to get to you  
I'll open up my soul  
If that's what you need me to do  
Now baby its your move  
All you've got to do  
Is believe in love, just believe in us  
Now...

I need you to know you can fall into me  
That my arms are wide open and will always be  
Right here waiting, staying strong  
Come and fall into me

Just believe in love, just believe in us  
Baby

I need you to know you can fall into me  
That my arms are wide open and will always be  
Right here waiting, Staying strong  
Come and fall into me

Come and fall into me  
Baby fall into me
