

# Heaven Is Wherever You Are

Emerson Drive

The search has gone on through the ages  
Searching for the Promised Land  
The Lord said build up the pages  
Preachers have taken their stand  
So many hearts that was lost in the dark  
Til I saw the light in your eyes  
When I'm with you there's no doubt  
That I found her at last

Heaven is wherever you are  
It's not a faraway place  
It's a state of the heart  
So I look to the stars but I don't have to go that far  
Heaven is wherever you are

I lay by your side in the moonlight  
And wonder how a man could be so blessed  
An angel like you holding me tight  
You've chosen me above all the rest  
You've shown me a path to a love everlasting  
The answer to all my prayers  
Everybody's dying to find it and we're already there

So I look to the stars but I don't have to go that far  
Heaven is wherever you are
