

Looking Over My Shoulder

Emerson Drive

Hey, yeah
I feel her hair slap in my face
It makes me smile
She slides her arms around my waist
Tighter every mile

Her lips are against my ear
I grab the clutch and find a higher gear

She said, "Don't look back, I gotcha covered
Forget the past, we've got each other"
And as I left the life before her far behind
She rode a little closer, lookin' over my shoulder

I check the mirror and catch her eye
She blows me a kiss
A round photograph reflecting
Just how right this is

I shouted I'm the king of the world
And I'll be yours forever, girl

And she said, "Don't look back, I gotcha covered
Forget the past, we've got each other"
And as I left the life before her far behind
She rode a little closer, lookin' over my shoulder

Over my shoulder
Over and over

She said, "Don't look back, I gotcha covered
Forget the past, we've got each other"
And as I left the life before her far behind

She said, "Don't look back, I gotcha covered
Forget the past, we've got each other"
As we left the life before us far behind
She rode a little closer, lookin' over my shoulder

She said, "Don't look back, I gotcha covered"
Lookin' over my shoulder, hey, yeah
