

Never A Good Day For Goodbye

Emerson Drive

You look at me and say, "This is gonna hurt"
I knew what was coming next before you said the words.
They hit me like a train, went straight to my heart,
In a second girl, you tore my world apart.

I wish you could've waited another week or two
But it really wouldn't matter, it wouldn't change the truth
There's never a good day,
Never a good day for goodbye

Monday without you just ain't right
Tuesday you're always on my mind
Wednesday, Thursday, Friday too
There could never be a day without you
Girl, when the weekend comes around
You know you're all I think about
I can't get you, can't get you outta my head
Three hundred and sixty-five
There's never a good day,
Never a good day for goodbye

Tomorrow comes along, it won't feel the same
Cause I could never find someone to ever take your place
If I'd have only known what was on your mind
I would have tried to stop the hands of time

I wish you could've waited another week or two
But it really wouldn't matter, it wouldn't change the truth
There's never a good day,
Never a good day for goodbye

Monday without you just ain't right
Tuesday you're always on my mind
Wednesday, Thursday, Friday too
There could never be a day without you
Girl, when the weekend comes around
You know you're all I think about
I can't get you, can't get you outta my head
Three hundred and sixty-five
There's never a good day,
Never a good day for goodbye

Whether sun is shining down
Snow is falling on the ground
It's still gonna hurt like hell
When you kiss me farewell
Winter, spring or fall
Baby, anytime at all
There's never a good day for goodbye

Monday without you just ain't right
Tuesday you're always on my mind
Wednesday, Thursday, Friday too
There could never be a day without you
Girl, when the weekend comes around
You know you're all I think about
I can't get you, can't get you outta my head

Three hundred and sixty-five
There's never a good day, never a good day
Oh there's never a good day for goodbye
