

## Testify

Emerson Drive

Boy and girl fall in love, startin' out just enough  
Pocket change, lean an' green, first and last security  
Newlyweds, overheads, all we really had was each other

All of the family and most of our friends  
Said it was over before it began  
As time goes on, we're provin' 'em wrong  
We're still together

Real love will survive  
Devil of defeat, better step aside  
Real love will survive  
If you need a witness, me and my little missus  
We can testify

Made a move, neighborhood lookin' up, lookin' good  
Saving money everyday, gettin' out of layaway  
Baby boys, lots of toys, man, I gotta say this is livin'

No, I'm not sayin' it's been perfect at all  
We've had our times, we hit the wall  
We backed it on up, yeah, we knocked off the dust  
And kept on diggin'

Real love will survive  
Devil of defeat, better step aside  
Real love will survive  
If you need a witness, me and my little missus  
We can testify

Real love will survive  
Devil of defeat, better step aside  
Real love will survive  
If you need a witness, me and my little missus  
Yes, see if you need a witness, me and my little missus  
We can testify
