## **Testify**

## **Emerson Drive**

Boy and girl fall in love, startin' out just enough Pocket change, lean an' green, first and last security Newlyweds, overheads, all we really had was each other

All of the family and most of our friends Said it was over before it began As time goes on, we're provin' 'em wrong We're still together

Real love will survive
Devil of defeat, better step aside
Real love will survive
If you need a witness, me and my little missus
We can testify

Made a move, neighborhood lookin' up, lookin' good Saving money everyday, gettin' out of layaway Baby boys, lots of toys, man, I gotta say this is livin'

No, I'm not sayin' it's been perfect at all We've had our times, we hit the wall We backed it on up, yeah, we knocked off the dust And kept on diggin'

Real love will survive
Devil of defeat, better step aside
Real love will survive
If you need a witness, me and my little missus
We can testify

Real love will survive
Devil of defeat, better step aside
Real love will survive
If you need a witness, me and my little missus
Yes, see if you need a witness, me and my little missus
We can testify
