

## With You

Emerson Drive

Just one chance  
To love you again and hold nothing back  
Just one time  
To say all the words I've kept inside  
Oh, to see you smiling while we're dancing  
Look into your eyes

I'd give anything anything to kiss your face  
And I'd trade all my forever for one more day with you  
With you

Change rolls in  
Like clouds overhead where the sun had been  
The reasons why  
Could never be as simple as black and white  
Oh but every moment took for granted  
Never leaves my mind

And I'd give anything anything to kiss your face  
And I'd trade all my forever for one more day with you  
Living, breathing, laughing  
Feeling you here by my side

I'd give anything anything to kiss your face  
And I'd trade all my forever for one more day  
Yeah for one more day  
With you  
With you
