How long can we wait here To say goodbye? The words once they're spoken Are words that we can't take

Back to where we were, before
Things got in the way
Life gets so confusing
When you know what you're loosing

You
Me
Why can't we see that there's
More to love than we'll ever know
Sometimes you're closer when you're
Letting go
I wish the best for you
I wish the best for you

We'll both regret the hurting That we will do You'll learn to forget me And I'll try I'll try to forget...

You
Me
Why can't we see that there's
More to love than we'll ever know
Sometimes you're closer when you're
Letting go
I wish the best for you

If you ever need a place that you can run to
I'll be here, I'll be here

You
Me
Why can't we see that there's
More to love than we'll ever know
Sometimes you're closer when you're
Letting go
I wish the best for you
I wish the best for you

I wish the best
