

# Closed Eyes, Open Hands

Emery

We can make believe  
We're happy and free  
It's automatic when  
The money is in our hands  
People always try  
To look beyond their own lives  
But, I know that it won't last  
Pride comes before our fellow man

Oh-oh, Oh-oh, Oh-oh-oh  
Oh-oh, Oh-oh, Oh-oh-oh-oh

It's a perfect day  
For us to make a change  
Forget about the watered down  
Mistakes that we have made  
And there's a way  
To clear our tainted names  
Just look ahead and don't be scared  
We've got so many choices to make

Take a look around (just look around)  
Where is your hope found (where is it found)  
Is it the ones you love  
Or just your bank account?  
(We all want to be)  
The people we should never be  
We're trying things we just don't need

It's a perfect day  
For us to make a change  
Forget about the watered down  
Mistakes that we have made  
And there's a way  
To clear our tainted names  
Just look ahead and don't be scared  
We got so many choices to make

Paint the things we don't need  
To impress those we don't know  
Indebted to our own accessories  
We hide behind our own lies  
But the fake dreams, it just can't be  
The only thing we have worth living for

It's a perfect day  
For us to make a change  
Forget about the watered down  
Mistakes that we have made  
Morning breaks into a brand new day  
So look ahead and don't be scared  
We've got so many choices to make
