

## Arizona

EMF

Most of our countdowns  
I've seen the sun rise over my head  
It's something called the Sea of Sad  
To feel what's on the inside out  
And if we had these visions  
To find our state of mind  
The beauty of this and all it holds  
And all the feelings we find  
Love your state of mind

And the beauty of this  
Is in the feelings you find  
Here with our close friends  
We haven't exchanged a word all night  
But they'll come to be  
With somebody who has also seen  
And if we're on this mission  
To find our state of mind  
The beauty of this and all it holds  
Is in every time we tried

There are no demons here  
Just a safe bright light  
That's blazing in the distance  
And starts our imaginations to fly  
And if we're on commission  
To find the times we find  
The danger of this and all it holds  
Is in all the fears we find

It's on the love we ride  
In the feelings we find  
On the love we ride
