

Getting Through

EMF

I'm too honest when I'm scared
When I first looked in I was young and cared

These are the ways of getting through
I left my trust on the tail of youth
We were so unsure of the things we'd seen

These are the ways of getting through
These are the things I'd do for you
And ask me and ask me
I'll be there too

I never learned to ask what's fair
It's just the words we use take us there

I never touch fortune
I never regret
It's just a simple task
To touch your depths

I never touch fortune
I never regret
It's just a simple task
To touch your depths
And I'm always too honest when I'm scared
When I first looked in I was young and cared
