

# Shining

EMF

I met you on a roller coaster  
Drive by shooting  
In a big black roadster  
It felt so good  
We danced in clubs  
In ballroom gowns  
Lined them up and all fell down  
It felt so good  
We played our cards for the promised land  
Walked on air and you took my hand  
It felt so good  
It met you where our worlds collide  
No one could touch us side by side  
It felt so good

Now you see it, now you don't  
Maybe get it, maybe you're wrong, maybe you're right  
Now you see it, now you don't  
How could you lose it

When you shine so bright, when you feel so right?  
I loved you with a forty-five  
A bullet jig at a roadside jive  
It felt so good  
We chased a demon through the night  
And laced our dreams with neon lights  
It felt so good  
We lost our heads in a winning streak  
Touched the sun and felt the heat  
It felt so good  
I loved you a forty five, a Cadillac  
And we got away alive  
It felt so good

Good won't last  
Now you see it, now you don't  
When you shine so bright, when you feel so right?

What did you feel in your drunken haze  
Did you feel better, than your better days  
When you shine so bright?  
How did you feel on your higher plain?  
How did you feel and would you do it again  
When you shine so right?

I met you on a roller coaster  
Drive by shooting  
In a big black roadster  
It felt so good  
We danced in clubs  
In ballroom gowns  
Lined them up and all fell down  
It felt so good  
We played our cards for the promised land  
Walked on air and you took my hand  
It felt so good  
I lost you to a dollar deal

I didn't know if it was real  
It felt so good  
Good won't last

Now you see it, now you don't  
When you shine so bright, when you feel so right?
