Shining

I met you on a roller coaster Drive by shooting In a big black roadster It felt so good We danced in clubs In ballroom gowns Lined them up and all fell down It felt so good We played our cards for the promised land Walked on air and you took my hand It felt so good It met you where our worlds collide No one could touch us side by side It felt so good

Now you see it, now you don't Maybe get it, maybe you're wrong, maybe you're right Now you see it, now you don't How could you lose it

When you shine so bright, when you feel so right? I loved you with a forty-five A bullet jig at a roadside jive It felt so good We chased a demon through the night And laced our dreams with neon lights It felt so good We lost our heads in a winning streak Touched the sun and felt the heat It felt so good I loved you a forty five, a Cadillac And we got away alive It felt so good

Good won't last Now you see it, now you don't When you shine so bright, when you feel so right?

What did you feel in your drunken haze Did you feel better, than your better days When you shine so bright? How did you feel on your higher plain? How did you feel and would you do it again When you shine so right?

I met you on a roller coaster Drive by shooting In a big black roadster It felt so good We danced in clubs In ballroom gowns Lined them up and all fell down It felt so good We played our cards for the promised land Walked on air and you took my hand It felt so good I lost you to a dollar deal I didn't know if it was real It felt so good Good won't last

Now you see it, now you don't When you shine so bright, when you feel so right?
