

## Faust

## Emigrate

What'd you say?  
About being saved?  
'Cause all it took  
Was just a taste  
I set the hook  
And drove the blade  
Ready for you  
Whenever

Everything is what it seems  
So much more  
Than what you dreamed  
They take you where  
Shadows roam  
Roaming in the never

Now I just can't get away  
No you don't, no you don't  
Now I just can't get away  
No you don't, no you don't

What I win  
I never lose  
We all get  
What we choose  
Ask for me  
I'll wait for you  
Until we have forever

Now I just can't get away  
No you don't, no you don't  
Now I just can't get away  
No you don't, no you don't  
Now I just can't get away  
No you don't, no you don't

Now I just can't get away  
No you don't, no you don't  
Now I just can't get away  
No you don't, no you don't  
Now I just can't get away  
No you don't, no you don't  
No you don't, no you don't
