

Rock City

Emigrate

Like you
I've never seen pretty lights
Let's make the most
Rock city night
Can't be forever true
But there's still some
Things
That we can do
In you
I really wanna be tonight
Please let me do
Rock city night
Take what you want from me
'Cause I'm all about
The fantasy

I'll wait for you
Downtown
'Till you come around
Be my secret Lover
Are we alone?
Never can I touch your
Secrets
Just you and me
Are we alone?

God's cool
He lets me do what I like
You're old enough

Rock city night
Might take your dignity
But you'll never want it
Back from me
Let's make a memory
Of a night when we are
Truly free
There's nothing I can't be
Let me solve your mystery

I'll wait for you
Downtown
'Till you come around
Be my secret Lover
Are we alone?
Never can I touch your
Secrets
Just you and me
Are we alone?

Are we alone?
Let me breath in
All your secrets
On dirty knees
I'll bring you home
Are we alone?
Hide behind

Your dirty secrets
Can't you see?
We aren't alone
