

Here Comes the Fire

Emil Bulls

Here comes the fire - the cleansing fire

Now that all the damage is done
Your wretched soul is on the run
Riddled with guilt you wanna come undone
Let it in let the mourning come
Feel the heat

Here comes the fire - the cleansing fire

We all come to rearrange life
Yes we all come to rearrange
We're the disciples of the flames
We're acting in their name
We are the nemeses of pain
The cleansing from sin

We are the fire

You epitomize mankind's demise
Disguising hate as a social guy
Free from conscience faith and creed
Leave your burden to the fire's breed
Feel the heat

Here comes the fire - the cleansing fire

Confutatis maledictis
Flammis acribus adictis
When the wicked are confounded
Doomed to flames of woe unbounded

Now that the damage is done your wretched soul is on the run
We're on red alert we'll come to rearrange all that's gone wrong
We are the fire
