

# I Bow To You

Emil Bulls

You raise cathedrals  
Divine and precious  
Your mind is ocean sized  
You cause avalanches  
Grand and impressive  
You're the calm and you're the storm

You reach the highest ground  
You amaze in flawless charm  
Your achievements are beyond belief  
You soothe the savage heart  
The rivers of your works  
Nurture fields of joy  
You're the salt of the earth  
Captain my captain  
You will never let me down

To need you to feel to breathe you  
Is what i'm living for  
So now I bow to you  
To need you to feel you to breathe you  
Is what i'm living for  
Is what i'm living living for

You're the food of love  
You teach us how to feel  
You capture the essence  
Of sadness solace and joy  
At any given time  
I could die in your embrace  
So play on play on play on  
Captain my captain  
You will never let me down

To need you to feel you to breath you  
...

You raise cathedrals  
Divine and precious  
Your mind is ocean sized  
Captain my captain  
Thy name is music
