

I Don't Belong Here

Emil Bulls

thank god I finally know
this ship is out of control
thank god I have the balls to leave it to the sea
got my lifeboat well prepared
I'm gonna breath virgin air
I'm gonna smell the scent
of a new island

It's already said already done
I know I owe you nothing
everything is said and done
I just can't stay here
It's already said already done
I know I owe you nothing
everything is said and done
I don't belong here

I've got the wind at my back
the sun upon my face
the wings of my belief
carry me to the stars
I wanna spend my days
in a place without any memories
where the wounds of experience
can find a chance to heal

It's already said already done
I know I owe you nothing
everything is said and done
I just can't stay here
It's already said already done
I know I owe you nothing
everything is said and done
I don't belong here

and I, I won't need you tomorrow
like you don't care today
we'd well in constant sorrow
sorrow is the name
of your game
I don't belong here
God, I don't belong here
It's already said already done
I know I owe you nothing
everything is said and done
I just can't stay here
It's already said already done
I know I owe you nothing
everything is said and done
God, I don't belong here

It's already said already done
I know I owe you nothing
everything is said and done
I just can't stay here
It's already said already done
I know I owe you nothing

everything is said and done
God, I don't belong here
God, I don't belong here
I don't belong here
