

# Infesting the Program

Emil Bulls

You'll never dig that  
I'm addicted to that  
You're sealed off in your own selfish world  
Don't tread on my dream  
This is all I got  
My vocation  
It thrills fills and kills

Won't you stop infecting the the program  
Can't you see that I'm addicted to it  
Stop your false flag operations  
Don't you get that I can't live without it

You'll never get me under your thumb

You'll never infect me with the virus that you spread  
I'm going to annihilate  
Everything we've shared  
I'll teach you a lesson  
Onethat you'll never forget  
This is passion  
It thrills fills and kills

Won't you stop infecting the the program  
Can't you see that I'm addicted to it  
Stop your false flag operations  
Don't you get that I can't live without it

Come on! Check this out!

Won't you stop infecting the the program  
Can't you see that I'm addicted to it  
Stop your false flag operations  
Don't you get that I can't live without it

Won't you stop infecting the the program  
Can't you see that I'm addicted to it  
Stop your false flag operations  
Don't you get that I can't live without it
