

It's High Time

Emil Bulls

Have mercy on me
An endless blankness is rising
I face my own demise and realize
In my mind I'm already dead

Fire return into my life
It's high time
Guide through life
It's high time
From darkest valley to
The far side of the moon
Don't you ever leave my side

My worst enemies
A magnetic attraction towards me
Full speed exceed the limit
This is far beyond my control

Fire return into life
Don't you ever leave my side
Inject your spirit into my mind
Don't you ever leave my side
