

Magnificent Lies

Emil Bulls

All right yeah

No bitchin' no fightin' the drugs are for free
We know all the tricks we belong to the scene
The wheel of fortune rolls to us again
We'll take your queen
Surprise - checkmate

Around the world boys and girls
Willing to believe in your lies
My magnificent lies
Better be scared be aware
Just take a look at the sins of your life
We took all your conscience away

Live and alive we're back from the dead
We'll give you something you'll never forget
Girls liquor sex
Will doom us again
You gonna sweat blood
When we unleash hell

We're the wolves and you're the lamb

Around the world boys and girls
Are willing to believe in your lies
My magnificent lies
Better be scared be aware
Just take a look at the sins of your life
We took all your conscience away

We're the wolves and you're the goddamn lamb
We get hardly anything out of anything
We're in bad shape
We're in lousy shape
But we got the guts

Around the world boys and girls
Are willing to believe in our lies
My magnificent lies
Better be scared be aware
Just take a look at the sins of your life
We took all your conscience away
Just confess just confess just confess them all
The sins of your life the sins of your nights to me
Them all to me
