

Nothingness

Emil Bulls

We're in the same boat springing a leak
We're going to sink together
Guys like us we don't let each other drown
We abandon no one when the biggest waves break down
Come on

Hold your ground
Don't give in to the bitterness
Clean and refresh body and mind
From all nothingness

When the clouds cover up a clear blue sky
Show your guts
Don't disappear
Faster than a fly
Sometimes you gotta fight eye for an eye
So come on

Hold your ground
Don't give in the bitterness
Clean and refresh body and mind
From all nothingness
Hold your ground
Don't give in
To the bitterness
