

Resurrected

Emil Bulls

Like a bolt from the blue
I'm the boy I never knew
Suddenly, I hate myself
My band and the whole crew
So I step out for some days
To damn my entire life oh I
Wanna reinvent myself

So recharge the light over my head
This bright white light over my head
that showed me the way

to the other side where i can be myself
i wanna meet me myself and i
for dinner tonight we're three cool guys who are about to find
their lifes
i see myself giggling with this chick while me gets drunk with
i

so recharge the light over my head
this bright white light over my head
that showed me the way

after three days christ is back
kissed blessed glissened shining
glamorous and clean
a fresh bulb in the socket

so recharge the light over my head
this bright white light over my head
that showed me the way

please don't burn out
