

# Resurrected

Emil Bulls

Like a bolt from the blue  
I'm the boy I never knew  
Suddenly, I hate myself  
My band and the whole crew  
So I step out for some days  
To damn my entire life oh I  
Wanna reinvent myself

So recharge the light over my head  
This bright white light over my head  
that showed me the way

to the other side where i can be myself  
i wanna meet me myself and i  
for dinner tonight we're three cool guys who are about to find  
their lifes  
i see myself giggling with this chick while me gets drunk with  
i

so recharge the light over my head  
this bright white light over my head  
that showed me the way

after three days christ is back  
kissed blessed glissened shining  
glamorous and clean  
a fresh bulb in the socket

so recharge the light over my head  
this bright white light over my head  
that showed me the way

please don't burn out
