

Underground

Emil Bulls

Going down underground
Darkness all around
Hear god's calling me
God's army is at my heels

There's something inside me that tells me
Boy you should run
A bad moon is rising - stay awake
It's over we're all are running out of life

So don't Fall asleep tonight
You might never see the morning light
Enjoy life before you die
We're all running out of time

There's something inside me that tells me
Boy you should run
A bad moon is rising - stay awake
It's over we're all are running out of life
It's over we're all gonna die tonight

God's army is at my heels
God's army is at my heels
We're all gonna die tonight
We're all gonna die tonight

There's something inside me that tells me
Boy you should run
A bad moon is rising - stay awake
It's over we're all are running out of life
It's over we're all gonna die tonight

Tonight
Tonight
Tonight
Night
We all
We all
We all
Die
