

Come Into My Life

Emilia

Love is a feeling
That can make you blind
You've got all this love inside
And it makes you warm

Will you believe me
Not put me aside
For every day that passes
You mean more to me

Come into my life right now
And I'll make you complete
There is no one else
I'm for you entierly

Come into my life right now
Let me touch up your day
There is no one else
I'm for you entierly
Entierly

Can you forgive me
For my empty words
Now, I will be a queen
And you'll lay down your sword

Tell me you see me
With you big blue eyes
See the woman in me now
That cherish you so

Come into my life right now
And I'll make you complete
There is no one else
I'm for you entierly

And I will stand by you
For ever more
I'll be right there, oh yes
I'll be right there, I will
I'll be right there
For you
