

# Kiss by Kiss

Emilia

You can't believe  
How did I succeed  
I went where no one's gone before  
I opened up your heart  
And tiptoed through the door  
To forevermore

What did I do  
I took my time with you  
The other girls they moved too fast  
I knew the way to make it last  
Was take it slow  
I let it grow

Kiss by kiss, and baby  
Touch by touch  
that you want from me so much  
Darling  
Kiss by kiss is how I  
Got you to fall in love with me like this

Now here's the key  
I made you come to me  
I didn't run, I didn't chase  
I played it cool, I gave you space  
Before I knew  
I was holding you

Made every kiss  
Just so hard to resist  
I always left you wanting more  
Careful not to give it all  
I played it smart  
I won your heart

Kiss by kiss, and baby  
Touch by touch  
that you want from me so much  
Darling  
Kiss by kiss is how I  
Got you to fall in love with me like this

Night by night and  
Baby day by day  
You grew to feel that special way  
Darling  
Kiss by kiss is how I  
Got you to fall in love with me like this

I wanted you from the start  
You know it was so hard  
To keep it locked inside me  
Afraid to scare you so  
Instead I let it show

Kiss by kiss, and baby  
Touch by touch

that you want from me so much  
Darling  
Kiss by kiss is how I  
Got you to fall in love with me like this

Night by night and  
Baby day by day  
You grew to feel that special way  
Darling  
Kiss by kiss is how I  
Got you to fall in love with me like this

Oh  
Kiss by Kiss
