Big Jumps

Emilíana Torrini

I walked all morning to life my heart 'Cause the world keep dancing with The paper man
I love you never talk in dreams
The now is here your happiness is real

Oh make some big jumps, big jumps
You afraid to break some bones?
Come on do some big jumps, big jumps
Life is yours alone
You hold your head up, your head up high
Like you think I do
doop doodoop doodoop doo doo doop

Sometimes I feel so confused I'm under the illusion that I Have to choose I love you always know the way The way back home always is the same

Oh make some big jumps, big jumps
You afraid to break some bones?
Come on make some big jumps, big jumps
Life is yours alone
You hold your head up, your head up high
Like you think I do
doop doodoop doodoop doo doo

Tick tock this clockwork will stop You're the key for winding up my heart Brick brack if you don't wind me up The sky will lie upon me like a Pass out drunk Without you I would never rise again Without you I would never rise

Hey there sunshine lift my heart
I know life is long but it goes so fast
I love you never feeling old
You never bought the rubbish that they sold

Oh make some big jumps, big jumps
You afraid to break some bones?
Come on make some big jumps, big jumps
Life is yours alone
You hold your head up, your head up high
Like you think I do
doop doodoop doodoop doo doo

Oh do some big jumps, big jumps
You afraid to break some bones?
Come on make some big jumps, big jumps
Life is yours alone
You hold your head up, your head up high
Like you think I do
doop doodoop doodoop doo doo

doop doodoop doo doo doop
