

Oh beneath the waves  
Songs surround me  
Heaven binds me to a place we lost  
Inside a plane thoughts deceive me  
Your truths with me  
Time and time and time and time and

Elísabet we're calling out to another  
when all is said  
Oh world give silence silence silence

Come out from the dark  
Nights a whisper  
Faces flicker n'anchored by your fire  
Sleeping on the sand  
Night surrenders  
Shadows cower  
In wait in wait in wait in wait and

Elísabet the distance sounds of bells  
Surround you  
When all is said  
Oh mind give silence silence silence silence
