

When Fever Breaks

Emiliana Torrini

When fever breaks
What happened to my mind?
When fever breaks
The heart sinks in the mire
When fever breaks
The soul throws itself under

Cause desire is rage
N' rage is desire
Desire is rage
Oh rage is desire

When desire breaks
My body will unwrap you
When in rage it rages
I want to kill you with my fire

Don't you dare
No don't you dare put love inside this frame
It is hurt, it is hurt that makes you want this fate

When fever breaks
Do you hold it safe around you
Do you love when it aches
Cause this rage will catch on fire

When desire aches
My body will unwrap you
When rages rain
I will drown you with desire

Cause desire is rage
N' rage is desire
Desire is rage
Oh rage is desire

When desire breaks
Body will unwrap you
It's an angry fate
It will kill you, it will kill you
I will kill you
