

# All Is White

Émilie Simon

All is white  
I think it snowed in the night  
Everything is cold  
So cold outside

I listen to the wind  
All alone  
I know it means  
A storm will come

I want to live in paradise  
I want to live in the south  
I want to live in paradise  
At the south of the earth tonight

All is white  
I know it snowed in the night  
Everything is cold  
So cold outside

I try to be calm  
It's a lonely trip  
Listen to my eyes  
Listen to my lips

I want to live in paradise  
I want to live in the south  
I want to live in paradise  
At the south of the earth tonight

I want to live in paradise  
I want to live in the south  
I want to live in paradise  
At the south of the earth tonight
