

Dreamland

Émilie Simon

Where have you been you sweet little girl
Did you find your place in the sun
Always in your dreams, you're never really there
Did you find the thing that you lost

She never seems to wake up
But I don't want to give up
She locked the door and lost the key
When she goes to Dreamland
Nothing bad can happen
Cause she won't be seen there
No she won't be seen there
No she won't be seen
Cause there's no one there

Where have you been you green little bird
Did you fly away to see the world
You're living in a dream
You're chasing the ghost
Did you find the key that you lost

She never seems to wake up
But I don't want to give up
She locked the door and lost the key
When she goes to Dreamland
Nothing bad can happen
Cause she won't be seen there
No she won't be seen there
No she won't be seen
Cause there's no one there

When the dream will be over
Just try to remember the time you shared with me
