

# I Call It Love

Émilie Simon

I call it love, I call it love  
My true love is you  
I call it love, I call it love  
Just me and you

Every day I sing  
For you this melody  
I call it love

You're in my mind all the time  
You know it's true  
I call it love, I call it love  
Just me and you

Baby can't you see  
How much you mean to me  
I call it love
