

I Call It Love

Émilie Simon

I call it love, I call it love
My true love is you
I call it love, I call it love
Just me and you

Every day I sing
For you this melody
I call it love

You're in my mind all the time
You know it's true
I call it love, I call it love
Just me and you

Baby can't you see
How much you mean to me
I call it love
