

# This Is Your World

Émilie Simon

You can go back, this is your world  
You can look up, this is your world  
You can slow down, this is your world  
A better day must come

You never loose, this is your world  
You never win, this is your world  
They pull your strings, this is your world  
For the song of the big machine

It's a big machine

It's a big machine  
For a little girl  
You gotta shut it down  
You gotta let it burn

You can if you try if you really wanna do it  
You know you could

They make the rules, this is your world  
It's not too late, this is your world  
To change the game, this is your world  
A better day must come, this is your world

But we are small, this is your world  
And we stand alone, this is your world  
And the big machine, this is your world  
Keeps rolling on, this is your world

And it's going on and on  
And it's going on and on

It's a big machine  
For a little world  
You gotta shut it down  
You gotta let it burn

You can if you try if you really wanna do it  
You know you could

Oh it's going on and on  
The big machine keeps rolling on
