

# Telethon

Emily Haines

When I'm on will you leave me on?  
When I'm on will you leave me on?  
And when I'm down will you let me get under?

Take cover, can't hide without a house  
Newspapers blow over  
Can't walk past the driveway without asking for direction  
So full of stupid questions

When the daylight's like fluorescent light  
I'm gonna take my time night by night  
When the daylight's like fluorescent light  
I hang my hands over your eyes to hide

When I'm on will you rescue me?  
I watch that telethon  
Got hung up on the word, I can't get it over  
Soldier

When she says nothing is enough  
She doesn't mean, don't try to fix it  
Make plans with your other hand  
Dream without concession

When the daylight's like fluorescent light  
I'm gonna take my time night by night  
When the daylight's like fluorescent light  
I hang my hands over your eyes  
I hang my hands over your eyes to hide
