

# Alright

Emily King

And it's okay, and it's alright  
'Cause I'm a keep movin' with my life  
The time has come and I must grow  
(Gotta keep movin' on)

I've been goin' through lots of changes  
But no matter how long the days get  
I'm gonna be good 'cause inside I know  
(It's gonna be alright)

Woke up this mornin' with these problems on my mind  
And head is achin', I'm so tired of cryin'  
See, my man broke up with me last night  
Lately it seems like nothing's going right

Then suddenly, I hear a voice say  
Em, get up, you can't be late for work today  
Ya see, I'm tryna make my own way  
But sometimes I think I might be going crazy

So I get ready and I head off to the studio  
I'm in the cab and I get a message on my phone  
It's the label sayin' they need one more song  
Better make it today or your dream is gone

So I, take a minute try to catch my breath  
When I go to pay the fare, got no money left  
Tell me when will all this struggle end?  
I just wanna smile again

But through all the hurt and pain  
I know it's gonna bring me a brighter day  
And no matter what might come my way  
I know I'll be okay
