

Distance

Emily King

Hey, love, time to get up
I think you've been sleeping too long
My day started when you were still yawning

One room just ain't enough
When it's two folks tryin to get along
But it's hard to leave you alone

(Chorus - part 1)
Oh, love is always better
When we take time to get back to who we are
When we are apart
Distance makes the heart...

(Chorus - part 2)
Grow, even when I'm lonely
Happy knowing that your love is never far
When we are apart
Distance makes the...

It makes the leaves on the trees fall
Makes the hours in the day long
Makes me wanna clear my head
Find a little cafe , write the words to a song
(I want you to change it)

And I know that I'm still free
Be anywhere that I wanna be
Maybe get dressed up, wear something real pretty that you ain't never seen

(Chorus - part 1)
Oh, love is always better
When we take time to get back to who we are
When we are apart
Distance makes the...

(Chorus - part 2)
Grow, even when I'm lonely
Happy knowing that your love is never far
When we are apart
Distance makes the...

When you love..
It makes the heart
When you trust..
It makes the heart
When you go..
Makes the heart
We're alone, we're apart

In the middle of the fight
Walk away, to make it right
Where we go, we're never far
In the light or in the dark

On a plane, up in the stars
In a movie, or at the bar

Home alone or after tea
look to your heart and think of me

I wanna love you
Don't wanna try
To change the pace of your life
We get together
And make it good
Get together
Distance makes the...

Hey, love, time to get up
I think you've been sleeping too long
My day started when you were still yawning
