

# Ride With Me

Emily King

[Verse 1:]

Take me away  
Far from this place  
Far from the people  
I've got to find my own space  
We can leave here today  
I got no where to be  
So come on let's go  
Where we can be alone  
Where we can be free ooh

[Chorus:]

And we'll ride on thru the night  
And let all the worries in our minds be free  
Oh just this time  
My darling won't ya take this ride with me

[Verse 2:]

Won't you take me away  
Somewhere some place  
Far from my troubles  
I've got to break from this cage  
All work and no play  
That's just no way to be  
So say that you'll go with me  
Where we can be alone  
Where we can be free oh yeah.

[Chorus:]

And we'll ride on thru the night  
And let all the worries in our minds be free  
Oh just this time  
My darling won't ya take this ride with me

[Bridge:]

We can leave the world behind us  
And at night the sky will light our way  
We'll go where no one else can find us  
Just say that you'll take me away

[Chorus:]

And we'll ride on thru the night  
And let all the worries in our minds be free  
Oh just this time  
My darling won't ya take this ride with me
