The Animals

Big teeth in your face Claws like a razor blade Never again will I ever be friends With a big bad wolf like you Poison that will eat you alive Tone like a dragon fire Never again will I ever be friends With a creepy little snake like you Chorus: I didn't learn the first time But (ooh) I learned the second time Never again will we ever be friends They told me don't feed the animals (no) Didn't learn the first time Lord I learned the second time Never again will we ever be friends No I won't feed the animals (no) [Repeat verse 1 and 2] Chorus (Don't feed the animals) Almost had me down (Don't feed the animals) But I know now (Don't feed the animals) Ain't no frenemy The enemy (Don't feed the animals) Tried to make me bleed (Don't feed the animals) On my knees (Don't feed the animals) But I'm still mad You better run and hide (Don't feed the animals) Almost had me by the skin of your teeth (Don't feed the animals) Tried to bite it but you couldn't catch me (Don't feed the animals) Ooh thought I'd run and hide But I'm still mad (Don't feed the animals) Just go fool make my day Just go on and never look back (Don't feed the animals) Don't feed
