

# 1-800 Clap Your Hands (The Water Is Rising)

Emily Osment

One eight hundred, clap your hands  
Petal to the medal and we don't look back  
We'll change your name, ride first class  
Fasten your seat belt, get real fast  
Living large is what we do  
Hug me hard so I don't forget you  
We say scream, we can't undo  
So I'm moving fast for me but who knew

The water is rising way over my head  
But I'm still safe and warm in my bed  
The water is rising way over my head  
But I'm still safe and warm in my bed  
I'm only dreaming, yeah, I'm only dreaming

Every magazine that I read's got  
Ten more ways to ruin me  
With the chip on my shoulder, shoes too tight  
Party in the pool, party at night  
Paint you up and down with this beat  
I'll follow you and you'll follow me  
It's gonna take you and your 7 nation army  
I'll fight cause I know I'm right

The water is rising way over my head  
But I'm still safe and warm in my bed  
The water is rising way over my head  
But I'm still safe and warm in my bed  
I'm only dreaming, yeah, I'm only dreaming, yeah

I'll never forget what I leave behind me  
I just make space, make room for sighing, ah ah  
I make peace and love for a living  
Make the children dance and sing, ah well ah

The water is rising way over my head  
But I'm still safe and warm in my bed  
The water is rising way over my head  
But I'm still safe and warm in my bed  
I'm only dreaming, I'm only dreaming
