

Burn Apollo

Emily's Army

Burn Apollo hear me sing
I can do you anything
Lights abrasion follows me
Only if you disagree

Colossal planet free the sun
All could ever do's been done
My mind cant take this feeling too
So I say I'll follow you

Stop waiting for the ocean
Sun can only change its motion
You and I could run away
Epic times we fall a stray to peace

To peace My love

Cloudless morning with the sun
Reminds us of what we have done
Destruction to our planet fast
Has made it so these days won't last

Stop waiting for the ocean
Sun can only change its motion
You and I could run away
Epic times we fall a stray to peace

To peace My love

And now concluding with our ways
Forever will this be amazing
Follow me apollo sun
Show this world what they have done

Stop waiting for the ocean
Sun can only change its motion
You and I could run away
Epic times we fall a stray to peace

To peace My love
To peace
To peace My love
