

Little face

Emily's Army

Walking down the street when I saw
There was nothing to be found
Oh great Lincoln, where've you been?

Ever wondered of the people
That have touched his face
Oh Washington, where've you been?

From the west coast to the east
(Padadada)
I don't like this piece the least
(Padadada)
Come to think of it,
We're only here because we care,
It isn't fair,
Where have all these people been before?

Little child wherever have you been?
Come enjoy my ever lasting love for this world

Reagan says it's time to go
To get a life and follow her,
I say Reagan you suck

From the west coast to the east
(Padadada)
I don't like this piece the least
(Padadada)
Come to think of it,
We're only here because we care,
It isn't fair,
Cause we care,
Is it fair?
Where have all these people been before?
