

You're Not Superior To Me

Emily's Army

Doesn't matter about the hair and the make up
Your still the same in anyway that you shape up
Don't know what you heard about me
You're not superior to me

See you staring out the window with hatred
Looking down at us as if we are who made it
Don't know what you heard about me
You're not superior to me

You're not superior to me
In any way that you see

See you hanging at the 10th street square
I didn't know that you were happening around there
Don't know what you heard about me
You're not superior to me

See your friends staring at me
Why don't you tell them that there's nothing to see
Don't know what you heard about me
You're not superior to me

You're not superior to me
In any way that you see

You're not superior to me
In any way that you see
