I Wasn't Looking (When I Found Love)

Emma Bunton

People say
Never watch and wait
When the pressures on
You know it won't find you
Fate is shy
When you seek it hides
When you're looking left
It'll creep up on the right
So I found out for myself
That all the tales were true
You came without a warning
Not a clue

I wasn't looking when I found love
Yeah it took me by surprise
I wasn't looking when you showed up
Now you're all I see
I wasn't looking when you took my hand
The way it should be
I wasn't looking when I found love
And it's beautiful

Mind your time
Never stand in line
Cause the trouble is
It'll never come your way
Funny how
When you hunt them down
There's a drought
And if you don't
It rains all day
Cause no matter what you do
It'll end up finding you
And hits you like a boat out of the blue

I wasn't looking when I found love
Yeah it took me by surprise
I wasn't looking when you showed up
Now you're all I see
I wasn't looking when you took my hand
The way it should be
I wasn't looking when I found love
And it's beautiful

So I found out for myself
That all the tales were true
You came without a warning
Not a clue
Na na na da da,
Da da da da da da
Da da da da da da

I wasn't looking when I found love
Yeah it took me by surprise
I wasn't looking when you showed up
Now you're all I see
I wasn't looking when you took my hand

```
The way it should be
I wasn't looking when I found love
And it's beautiful      (2x)
```

```
The way it should be
I wasn't looking when I found love
And it's beautiful      (2x)
```
