

Circles

Emma Hewitt

I would wash away your tears
I would take away your pain
I would wait alone for you...

Keep you warm within the shelter
Of a world that we created
And we'd never let them through

I will stay forever lost in you
I will stay forever wanting you

But I'm in circles
Falling down like before
And we're the same souls
Who never found our way home
On the longest day...

I would listen to you talking
Cos I needed to believe that a change was coming
through
And there were moments I was taken by the beauty so
complete
But then it disappeared from view

Now I'm in circles
Falling down like before
We're the same souls
Who never found our way home
On the longest day...

I'm in circles
Spinning out of control...
We're the same souls
Who never found our way home
On the longest day...
