

# Miss You Paradise

Emma Hewitt

And there is something we leave behind to join the ride  
I couldn't wait but did not realize I'd never come back...  
And the calling is taking over and it lasts more than awhile  
Another reason I won't be around to say goodnight

Don't write to me I'll call you

All of my life I've been a lost satellite  
It's all a waste of time with me before I get it right  
And I miss you paradise  
Although you're over  
And I miss you paradise  
I know you're over

I lie awake and I count the hours passing by  
Too many questions that won't be answered here tonight  
And they rise in waves before you and the force opens your eyes  
Another reason I won't be around to say goodnight

Don't write to me I'll call you

All of my life I've been a lost satellite  
It's all a waste of time with me before I get it right  
And I miss you paradise  
Although you're over  
And I miss you paradise  
I know you're over

All of my life I've been a lost satellite  
Circling alone out here you're always on my mind  
And I miss you paradise  
Although you're over  
And I miss you paradise  
I know you're over

And I miss you
