

State That I'm In

Emma Hewitt

I took a ride
Fallen in the state that I'm in
Away from the lights
An ending before so we can begin now...

And it's all I see
This scene's burnt out
So meet me tonight
We'll leave behind all that we've been

Don't let it slide further away
With our eyes closed, in circles again
When I'm waiting and hoping for you to say that we'll
go...

And then we'll ride out
A silent escape that I'm craving
I figured out, for all our mistakes we could win...

(It's all I see...
These dreams call out
It's all I need
And I need this now...)

I took a ride
Driven by the state that I'm in...
